Title	: METHOD IN THE COMPENSATION OF UNLINEARITIES IN AN AMPLIFIER, AND USES OF THE METHOD AND THE AMPLIFIER	

**PETITION FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT**

Mail Stop Petition  
 Commissioner for Patents  
 P.O. Box 1450  
 Alexandria, VA 22313-1450

Dear Sir:

Applicants respectfully submit the following proposed petition in connection with the above identified application:

Applicants believe that the Office has incorrectly determined the patent term adjustment of this application at 0 days.

This is a PCT application and the date for patent term adjustment should be the "date on which national stage processing begins" according to the presentation found on the USPTO website. This would be either the date of National Stage Entry, which is September 5, 2000, the date the national stage application was filed in the USPTO or the 371(c) date which is June 15, 2001.

Both dates are after the effective date of May 29, 2000 for patent term adjustment.

This patent will not be subject to a terminal disclaimer.

The allowance of this application has taken more than 10 years, and the delay was not attributable to Applicants actions or failure to act. Accordingly, Applicants request that the determination of Patent Term Extension be recalculated using the correct date when national stage processing began.

The Commissioner is hereby authorized to charge any required fees due (other than issue fees), and to credit any overpayment made, in connection with the filing of this paper to Deposit Account 20-0668 of Texas Instruments Incorporated.

Date: September 16, 2011

Respectfully submitted,

/William B. Kempler/
